Edw

H J BHABHA Esq

Inspector General of Education in Mysore

The Secretary to the Govt of Mysore
in the Revenue & General Dep^{ts},
Bangalore

I have the honour to forward herewith letter No 90 dated 9th March 1897, but received in this office on the 24th March 1897, and bearing this office Register Number 10792 with its enclosure from the Honorary Secretary of the Maharani's Girls' School for the orders of Government on Resolutions I to IV, and IX passed by the Managing Committee at a meeting held on Saturday the 27th February 1897

2 The first and second resolutions are not in conformity with the provisions of the Mysore Service Regulations. All that is wanted at present is a provision for enhanced scholarships to be given to the three matriculated students should they prosecute their studies further. The establishment of F & A classes for their benefit seems to me of doubtful utility, as an unfailing succession of students in the F & A or High Sch as

classes is not to be looked for in the near future. In the sixth form there are five students at present. It is uncertain if any of them will pass the Matriculation Examination in next December. In the fifth and fourth forms there are no students at all. There are no girls who have passed the Lower Secondary Examination with English as their First Language seeking admission into the fourth form. In the Middle Department there are 27 girls learning English, but none of them have yet passed the III Anglo-Vernacular Standard in English, and even after passing the Lower Secondary Examination with English as the Second Language, they will require a year or two more of study to fit them for admission into the fourth form. How many of them will stay to prosecute their studies further after passing the Lower Secondary Examination can not be known beforehand.

3 I am unable to say whether the present staff will not require strengthening especially for the teaching of English and Mathematics if F.A. classes are to be permanently established. Probably teachers of superior attainments will have to be employed before the success of the F.A. classes can be assured. The present staff is adequate for High School teaching, but there is not enough work for the staff as there are pupils in only one form of the High School.

4 Under these circumstances I do not see my way to recommend the raising of the Maharani's School to the status of a Second Grade College. But if the three

matriculated girls desire to prosecute their studies further on the lines of the F A Examination curriculum, they may be encouraged to do so as the present staff had have leisure enough to teach them, and if they may be allowed scholarships of Rs 30 a month while under instruction in place of those of Rs 20 they have been hitherto getting. One year's longer stay at school is likely to do them good. re

5 In addition to the increase asked for in the scholarships of the matriculated students, the Committee propose an increase of 60 Rupees a month in re the scholarships of the lower classes rendered necessary, it is believed, by the admission of four new students into the Sixth Vernacular Class.
